

## GlacialLight to attend LIGHTFAIR® International 2010 in Las Vegas

04, May 2010, Taipei, Taiwan – GlacialLight, a division of GlacialTech Inc., a global provider of PC Cooling, Power supplies, power drivers and LED lighting extends an invitation to all business and media partners to attend their display at the

world's largest annual architectural and commercial lighting trade show and conference, to be held at the Las Vegas Convention Center from May 12-14, 2010.

Besides GlacialLight, the event in Las Vegas is expected to draw more than 19,000 attendees and will feature more than 475 exhibitors, showcasing products in more than 1,600 booths. The event will be an ideal venue to meet, and do face-to-face business, with the leaders of GlacialTech/GlacialLight and procure the latest in LED products.

Exhibition Date: May 12-14, 2010

GlacialLight Booth #: 2298, Hall C3C5.1

GlacialLight products on display will include many of the latest LED Lighting Solutions available; from torches, to lamp lights as well as many bulbs. LED tubes and light bar display lights, as well as streetlight and spotlight solutions will also be on display at GlacialLight's booth (#2298, Hall C3C5.1).

The event will provide prospective customers, media and interested parties an introduction to the great power saving technology that GlacialLight's LED series provides. GlacialLight's crowning achievements include products with power saving and dimming functions, which incorporate GlacialLight's own, specialty power drivers for LED tubes, which alleviate the need for secondary drivers, reducing costs and enhancing longevity. Make sure you check out the latest in LED technology at the GlacialLight booth (#2298, Hall C3C5.1).

### Wide Product Range

GlacialTech is developing a comprehensive range of products under the GlacialLight brand, stretching from street lighting solutions to all forms of industrial and architectural lighting. The products currently offered and in development at GlacialLight include significant enhancements to LED technology compared to the current range of competing products available in the market, such as MR16 / PAR30 / BR20 / BR30 / BR40 / T8 Tubes and Spotlights, streetlights, as well as the Light Bar for product showcase.

## **About GlacialLight**

GlacialTech Inc., is a diversified provider of cooling, power supply, and PC enclosure solutions for consumers and industrial applications. Having established strong relationships with LED semiconductor companies, thermal, SMPS and mechanism technology leaders worldwide, GlacialTech uses world-class engineering, efficient manufacturing and the highest-quality materials to provide high brightness, low power LED lighting solutions for indoor, outdoor and other customized applications under the GlacialLight brand.
