

DashDrive Durable UD311

The DashDrive Durable UD311 USB Flash drive packs amazing capacity and USB 3.0 speed into a rugged and miniature form. Manufactured using advanced Chip-on-Board (COB) technology, the UD311 is highly resistant to damage from water and impacts. Its delicate size and gem shape allows it to stay connected to a host device for long periods of use without causing obstruction.

Cherished Memories Shine Forever

DashDrive Durable | **UD311**
